

CDR makes its first nonprofit loan on behalf of the “Community Nonprofit Loan Fund” developed in partnership with Woods Charitable Fund, Inc.

The initial loan of \$10,000.00 was approved to Heritage Films, a 501c3 Charitable Institution, for completion of an historical documentary film called: *A Home Out West*. The loan will allow Steve Schechter, the film’s producer, to push the project through its final production steps. *A Home Out West* is the first high-quality, feature-length documentary to portray, in depth, the struggles of the first generations to settle the Great Plains. The larger Plains experience is illustrated primarily through the example of Nebraska: Nebraska people, Nebraska settings and events. The story is told through the settlers’ own words by relying on mainly the letters, diaries, and memoirs left behind for posterity. Release date for the film is scheduled for April 2012.
